GP UNBUNDLING TOOL

The Deficit Reduction Act, Final Rule, 42 C.F.R. § 447.502 provided clarification on the definition of bundled sales. This has prompted many manufacturers to re-examine their obligation to allocate their rebates, discounts and price concessions to purchasers of drugs. The requirements to allocate, or 'unbundle', these discounts across all drugs in a bundled sales arrangement has created a significant and complex burden upon the operations of many manufacturers.

FEATURES

- Compatible with any order management, contracting or pricing system
- Includes robust reporting features
- Handles different types of bundled contracts
- Comprehensive audit trail
- Easily integrated into existing systems

HOW IT WORKS

Mindlance Life Sciences offers a toolset that installs as a stand-alone web application that allows for configuration of unbundling methodology and complete automation of the unbundling process. The tool receives sales, rebate, discount and price concession data from various source systems including order management and contracting systems. It will apply configured unbundling logic and then export resulting unbundled transaction data to a government calculation system.

WHY MINDLANCE?

MINDLANCE PROVIDES THE TECHNICAL EXPERTISE REQUIRED TO REALIZE THE COMPLETE BENEFIT FROM CONTRACTING AND COMPLIANCE SYSTEMS AND THE POWERFUL DATA THEY SUPPLY. WE BRIDGE THE GAP BETWEEN FUNCTIONAL AND TECHNICAL ORGANIZATIONS THROUGH AN IN-DEPTH UNDERSTANDING OF YOUR COMPLEX BUSINESS ENVIRONMENT AND THE SOFTWARE THAT SUPPORTS IT. LET OUR EXPERTS AUTOMATE YOUR COMPLEX UNBUNDLING REQUIREMENTS TO CREATE A MORE EFFICIENT AND RELIABLE GOVERNMENT CONTRACTING ENVIRONMENT FOR YOU TODAY.
