# Mindlance Government Pricing

PHARMACEUTICAL PRICE REPORTING LEGISLATION CONTINUES TO BE A COMPLIANCE AND COST BURDEN TO MANUFACTURERS.

MINDLANCE OFFERS A GOVERNMENT PRICING SOLUTION TO MEET YOUR CALCULATION AND REPORTING NEEDS

The effort to comply is increasing at a time when many departments are reducing staff and resources responsible for performing regular calculation processes. Coupling this with an increased level of scrutiny and new penalties for noncompliance, existing manual processes become insufficient. Mindlance has developed a comprehensive pricing calculation solution to reduce compliance risk by eliminating inaccuracies caused by manual spreadsheet processes.

## WHY MINDLANCE?
