

GOVERNMENT SYSTEMS ASSESSMENT

GOVERNMENT CONTRACTING AND PRICING – TECHNICAL SYSTEMS ASSESSMENT

Let Mindlance Life Sciences perform a technical assessment of your government contracting systems. We will audit, assess and evaluate your current systems and procedures. The results of our technical assessment will pave the way to a more efficient, productive and compliant operation.

WHY PERFORM AN ASSESSMENT?

- ↘ Determine if your price calculation policies are being properly executed in the technology layer
- ↘ Proactively identify key risk areas before they become problematic
- ↘ Discover points of audit trail limitations and gaps
- ↘ Minimize potential losses associated with fines and penalties
- ↘ Improve performance issues by identifying problem processes
- ↘ Create a roadmap to a compliant and fully auditable government contracting operation

WHAT WILL BE REVIEWED?

- ↘ Calculation Methods: Are your systems properly applying your methodologies?
- ↘ Reporting Approach: Are you maximizing your data and streamlining submissions?
- ↘ Audit Trail: Are all aspects of your calculations re-producible in the event of an audit? Are proper data reconciliation processes in place?
- ↘ Security: Is your system safe and compliant?
- ↘ Integration: Can you rely on the integrity of your data? What additional components could be automated?
- ↘ Performance: Can performance and data storage be improved?

WHAT SHOULD YOU EXPECT?

We will provide thorough assessment documentation, along with presentation of the results. You will also receive actionable recommendations for improvement and remediation.
