

UPCOMING CONFERENCES

Mindlance will be sponsoring and exhibiting at two conferences in May: CBI's 12th Annual Medicaid Rebates Conference and I-many's Summit 2010 User Conference.

The Medicaid Rebates conference will be held May 12-14th at Disney's Contemporary Resort in Lake Buena Vista, Florida. Attendees can visit Mindlance's booth, where we will be demonstrating our government pricing solution. This tool, built entirely in Microsoft Access, offers small to mid-sized manufacturers a comprehensive pricing solution that automates much of the pricing process and provides a robust audit trail of activities.

I-many's Summit User Conference will be held May 24-27, at the Fontainebleau Miami Beach in Florida. Mindlance will be there to help users of I-many's applications get the most value and benefit from their systems. Stop by our exhibit to learn about our collection of assessment services which target the GP, Medicaid and CARS applications, overall system performance, contract compliance and ContractSphere readiness. We'll also be on hand to help strategize how to get manufacturer's systems ready to handle the new requirements created by the recently passed healthcare legislation.

If you are interested in attending either conference, please email us at info@mindlance.com to receive information on discounted rates.
